

## *PALM PRUNING*

- Immediate action has been taken to address the condition of the palm trees located in the access areas to the subdivision and in its interior. This measure has been implemented with the objective of preserving the aesthetics and general image of the environment.

# MAINTENANCE OF GARDENING EQUIPMENT AND PURCHASE OF BRUSH CUTTERS

- To address the urgency of the situation, we have taken immediate steps to carry out repairs and preventive maintenance on equipment used for landscaping work, including the mower and blower.
- As well as the acquisition of a brush cutter for better pruning in green areas.

## *FAUCET REPAIR IN PALAPA AREA*

- A new faucet was purchased and Fidel took care of its installation and testing.

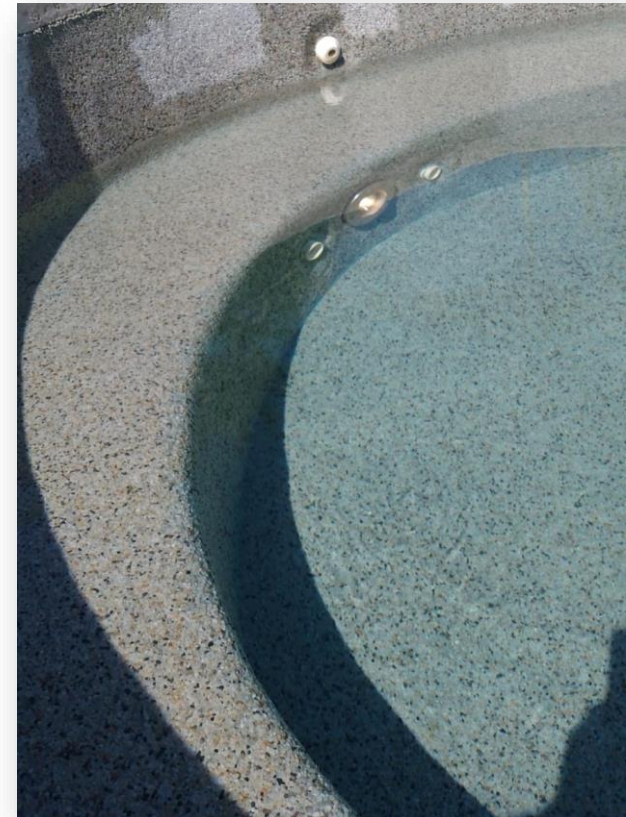

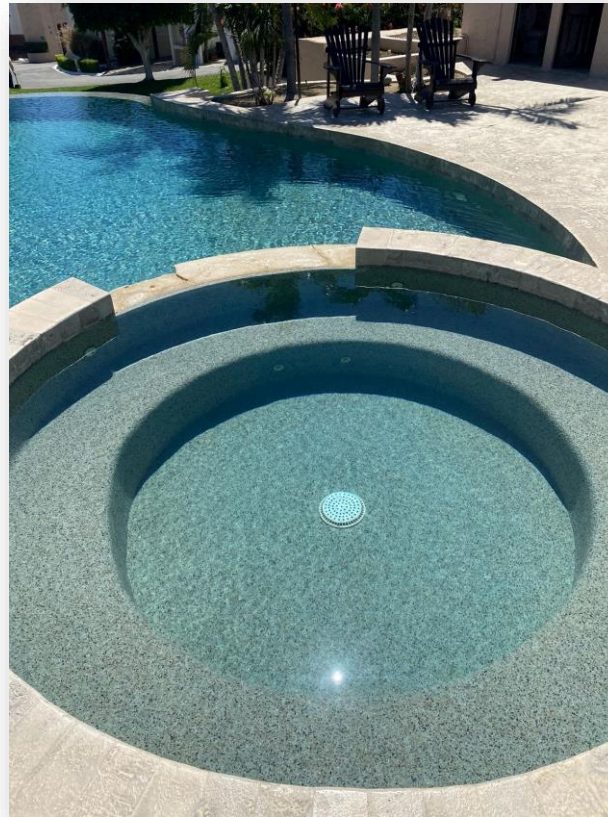

## LIGHTING IMPROVEMENTS

- The purchase of lighting fixtures for the common area was made and Fidel is in charge of their installation.

## JACUZZI LAMP REPAIR

- The jacuzzi lamp has been repaired and is fully functional.

## NEW SUMERGIBLE PUMP

- The purchase of a one-horsepower submersible pump was necessary due to the failures of the pump at the treatment plant. The old pump is currently in the workshop, while the new pump is operating without problems.

## *POST-HURRICANE CLEANUP*

- Due to the weather phenomenon 'Norma', green areas and roads were affected by the accumulation of garbage and mudslides. Our landscaping and maintenance team, composed of Fidel and Germán, acted immediately to clean and restore these affected areas.
